

Total
population

```
graph TD; A[Total population] --> B[Subpopulation with I_S = 1]; A --> C[Exclude terminations]; A --> D[Exclude private hospitals];
```

The diagram is a flowchart illustrating the selection of a subpopulation. It begins with a box labeled 'Total population'. A vertical line descends from this box. Two horizontal arrows branch off to the right from this vertical line, pointing to boxes labeled 'Exclude terminations' and 'Exclude private hospitals'. The vertical line continues down to a final box labeled 'Subpopulation with $I_S = 1$ '.

Exclude
terminations

Exclude
private hospitals

Subpopulation
with $I_S = 1$
